### About Me

I am a mechanical engineering student with a deep interest in web development. Passionate about building modern, scalable, and efficient web applications, I specialize in technologies like Next.js, React, and the MERN stack. My problem-solving mindset, combined with an engineering background, helps me create optimized and user-friendly solutions. I am always eager to learn new technologies and stay updated with industry trends, aiming to bridge the gap between engineering principles and innovative digital solutions.
